This optional (opt-in) rate is offered to residential Marblehead customers who want 100% carbon-free electricity NOW.

Please note these specific terms apply:

1. The term “carbon-free” electricity used in this rate has the same definition as “non-carbon emitting” electricity found in Massachusetts General Laws, Chapter 25A, Section 11F3/4, “Act for Creating a Next-Generation Roadmap for Massachusetts Climate Policy.”
2. The Go Green Now rate is \$0.020 (two cents) per kilowatt-hour of residential electricity consumed. The rate is billed monthly, in addition to the standard MMLD Residential Rate A (MDPU-84). The rate will appear on a separate line on your monthly electric bill. Given Marblehead residential customers use an average of 662 kilowatt-hours of electricity per month, the average residential monthly Go Green Now! charge will be \$13.24.
3. An average residential monthly electric bill, based on 662 kilowatt-hours per month, is \$144.76. **Adding the Go Green Now! rate of \$13.24 increases the average Marblehead monthly residential bill by only 9.1% to \$158.00.** (Based on the MMLD rates in effect January 2024.)
4. On a quarterly basis the revenue collected under this rate will be used to retire Berkshire Wind Mass Class 1 Renewable Energy Certificates (RECs) on behalf of MMLD, that would otherwise be sold by MMLD.
5. Customers who enroll in this rate agree to participate for a minimum of one year. An enrolled customer facing financial hardship may contact MMLD at 781-631-5600 to opt-out of this rate. Any enrolled customer may opt-out for any reason after one year.
6. On an annual basis MMLD will review the revenue collected under this rate. A revenue shortfall due to quarterly variations in REC prices will be paid by MMLD. Any customer overpayments will be used to retire additional RECs. Any changes in this rate will be made with prior public notice of 60 days.

Please email your completed form to customerservice@mhdld.com or drop it off at our office, 80 Commercial St.
