By signing this form, I certify that I have purchased an electric vehicle and I am an electric customer of the utility listed above. I am providing the requested information solely to be eligible to receive up to a \$300* rebate on a wi-fi enabled EV Charger through this program and request that the personal information supplied by me be treated as confidential.

Load Management Program Benefits

Sometimes major events happen on the electrical system outside of our control. Costs for these peak charging events are spread across **MMLD's** entire residential customer base. By participating in our load management program you are ensuring that MMLD is able to respond to these events with emergency scheduling via Wi-Fi connection to lower your charging rate until the event passes. Thank you!

Additional Restrictions:

- Only Residential Customers with an Active Municipal Electric Account are Eligible to Participate
- Limit **ONE** Charger per Household
- Electric Utility and its Affiliates not responsible for damage to charger
