

Marblehead Municipal Light Department

2021 Home Efficiency Incentive Program

Application Form

Program Overview

HELPS Home Efficiency Incentive Program is designed to assist the customer with the cost of installation for the most cost effective measures recommended in a home energy audit. Those measures are shown on the energy audit report.

We encourage you to proceed with the installation of those conservation measures that best suit your energy needs and are listed on your HELPS Home Energy Report.

General rule for cost-effective home energy efficiency: Insulate and air-seal first. (Ask the auditor for a list of firms providing air-sealing services).

Self-installation of insulation is not eligible for rebate.

Eligible Projects

In general, the most cost-effective audit recommendations should be installed first, excluding lighting. Renters should seek approval from their landlord before installing any measures.

Eligible Measures	Rebate
Blower Door Test & Air Sealing	50%, up to \$500
ENERGY STAR® Rated Heating System	50%, up to \$500
Insulation	50%, up to \$500
Duct Sealing	50%, up to \$500

- Steam Heating Systems are not eligible for rebate
- Self-Installation of Insulation is not eligible for rebate
- Customers eligible for a maximum of \$2,000 per year

How to Apply

1. Schedule a Free Home Energy Audit by calling 1-888-333-7525
2. Have energy efficiency measure installed by a licensed contractor and obtain invoice
3. Schedule a post installation inspection by calling 1-888-333-7525. The inspector will give you a signed inspection for that is required in order to receive your rebate.
4. Complete and submit this application as well as all of the items listed below:
 - **Signed inspection form**
 - **Contractor invoice** that includes the name, license #, address and phone number of the contractor
 - **A copy of a recent electric bill**

MMWEC Home Efficiency Incentive Program
 P.O. Box 2528
 Manchester, CT 06045
