ENERGY AUDITS

WHAT IS A HOME ENERGY AUDIT?

- Gives you a thorough picture of where you may be wasting energy and how to save money.
- Includes inspection of HVAC equipment and insulation levels.
- Diagnostic testing identifies problem areas.
- Can be conducted in person or virtually.

HOW DOES IT WORK?

- Our auditor will walk with you to inspect your home, review your bills, and possibly conduct an infrared scan* to determine potential savings in about 1-2 hours.
- Before the visit, make a list of any existing problems such as condensation and drafty rooms, and have copies or a summary of your energy bills.
