

Join the HELPS Connected Homes Program and Reduce Your Carbon Footprint!

Do you own, or are you planning to install, an electric vehicle charger, mini-split controller, electric hot water heater, or home battery? Are you looking to reduce your carbon footprint? The Home Energy Loss Prevention Services (HELPS) Connected Homes Program may be right for you.**

WiFi-connected devices make it easy and convenient to manage your energy use at home. By enrolling in the HELPS Connected Homes Program, you agree to allow the HELPS program to make brief, limited adjustments to your connected devices during times of peak electric demand. To thank you for participating, you will receive a monthly monetary reward for each qualifying* device enrolled in the program.

Visit www.munihelps.org for more information and to sign up!

*Qualifying EV Chargers: Chargepoint; Qualifying Mini-Split Controllers: Sensibo; Qualifying Electric Hot Water Heaters: GE, Rheem; Qualifying Home Batteries: Sonnen

**Customers enrolling qualified WiFi-connected devices in participating municipal light plant communities are eligible. Eligible device list is subject to change. Please visit www.munihelps.org for more information.
